Spend Less & Put Money in Your Wallet

Pay Early and Pay Less

Ever heard the expression “the early bird gets the worm?” Well, we want you to be the one getting the discounts on all the worms you buy. There are great discount opportunities out there and it’s time you took advantage of them.

Many vendors will offer a **discount of 2% per month** or more on all of your purchases for paying by a certain date. Now, this seemingly small percentage may not seem like much, but 2% can **compound to approximately 36% per year!** With multiple vendors, this amount will add up quickly.

Reduced cost is increased profit. More money in your wallet is, well, more money in your wallet. Plus, if you want to insure that you are getting paid on time and really please your clients, you can pass that savings on to them, if they pay you early. This way it’s a win-win for everyone. Here’s your chance. Shell out early and save big.
